SKI WITH CARE & CAUTION Watch for both natural and man-made obstacles. Ice, thin or bare spots and variations of the snow surface can and do exist. Be alert to continually changing conditions. Snow, ice, sheer drop-offs, bare ground, rocks, roots, stumps, trees, lifts and snowmaking towers, ruts, bumps and many natural and man-made objects are part of the inherent risks of all alpine activities. Falls or collisions with objects can cause catastrophic injury or death. Ski area vehicles may be in operation at any time on open terrain.

DO NOT SKI/RIDE NEAR SUCH VEHICLES OR EQUIPMENT. Fences, bumpers, posts, poles, signs, ropes and other apparatus are used as "Ski Awareness Devices." They mark hazards or obstacles and will not protect you from injury. Your safety is directly affected by your judgement. Failure to follow the posted "Your Responsibility Code" may result in the loss of skiing/snowboarding privileges.

- ### YOUR RESPONSIBILITY CODE
- 1) Always stay in control, and be able to stop or avoid other people or objects.
 - 2) People ahead of you have the right of way. It is your responsibility to avoid them.
 - 3) You must not stop where you obstruct a trail, or are not visible from above.
 - 4) Whenever starting downhill or merging into a trail, look uphill and yield to others.
 - 5) Always use devices to help prevent runaway equipment.
 - 6) Observe all posted signs and warnings. Keep off closed trails and out of closed areas.
 - 7) Prior to using any lift, you must have the knowledge and ability to load, ride and unload safely.

KNOW THE CODE: IT'S YOUR RESPONSIBILITY.

THIS IS A PARTIAL LIST.
BE SAFETY CONSCIOUS.
